13VT

13vt.net · BNB Smart Chain

Getting started with 13VT

Get ready, then open the link in your wallet app's browser

Before you start — Prepare 4 things

1. **A Web3 wallet**
   MetaMask · Trust Wallet · Bitget Wallet · TokenPocket · OKX etc. Set the network to **BNB Smart Chain (BSC)**
2. **13 USDT**
   BEP-20 (BSC-USD) on the BSC network only
3. **BNB for the fee**
   Fee 0.0013 BNB + about 0.0003 gas → keep at least **0.0016 BNB**
4. **Your sponsor's referral link**
   It looks like this: `13vt.net/?ref=0x…`

When you get the link — Do this

1. **Copy the link**
   Long-press the link in LINE / Telegram, then choose Copy
2. **Open your wallet app → "Browser / DApp" menu**
   MetaMask · Trust · Bitget · TokenPocket · OKX all have a built-in browser
3. **Paste the link into the URL bar and open it**
   You should see the domain `13vt.net` and "Sponsor: 0x…"
4. **Tap Connect and choose your wallet**
5. **Check balances: both USDT and BNB must show ✓ Enough**
6. **Tap Approve 13 USDT → Confirm registration**
   Confirm in your wallet as shown (may be 1–2 times) and wait for "Success!"
7. **Done! You get your own referral link**
   Choose your product later in the dashboard at no extra cost

Be careful

- Check that the domain is exactly **13vt.net**
- Never share your Seed Phrase / Private Key. No team member will ever ask for it
- Your registering wallet is permanently bound to your sponsor and your membership and cannot be changed. All income goes to this wallet
- If your normal browser can't connect to your wallet, copy the link and paste it into the wallet app's own browser
