Earning in Team B

Round 1, and round 2 when you refer 2 more IDs

Round 1 Refer 2 IDs

At **DI 2** you enter **Team B** with position **x**, joining the queue of the global binary tree in the order you qualified

The first ID placed on your left leg
pays you +13 USDT (once)

Right leg: no payout
but you get a new position x2 at the end of the queue

Round 2 Refer 2 more IDs

Refer 2 more IDs (**DI 3–4**) → every even DI (2, 4, 6…) gives you a **Reborn x2, x3…** position at the end of the queue, with the same rights as your original, and you can earn Team B income again under the rules

DI 1	DI 2	DI 3	DI 4	DI 6
+13 direct	Enter B (x)	+13 direct	Reborn x2	Reborn x3

Left leg of x2: x2 is not paid, but Reborn x3 and x4 follow, and the position above you receives 13 USDT, per the contract rules

Good to know

- Every position (x, x2, x3…) pays into the **same wallet** you registered with
- The “Team B” page shows only your own positions and everything below them
- See your income on the dashboard under “Binary income, Team B (Reborn)”. Every payout can be verified on BscScan
